The Prins Advantage

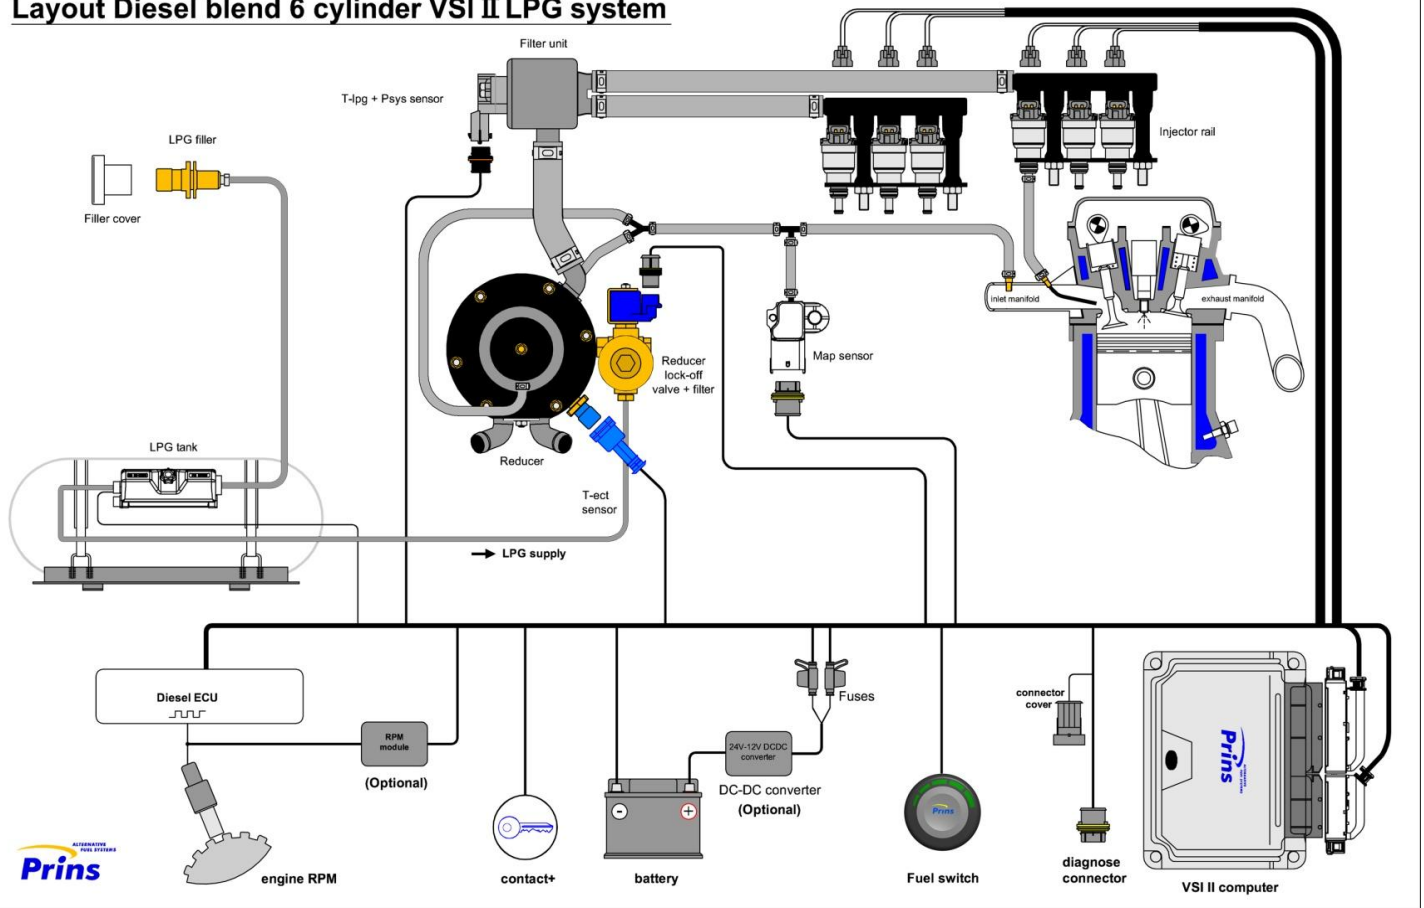

ALTERNATIVE FUEL SYSTEMS
Prins

- Dual-fuel system (diesel or gasoline and LPG)
- Extended range between refuelling
- Superior driveability, and emissions performance
- CSA and ISO Certified
- Fully CANBUS and OBDII Compliant
- Equal or comparable power to gasoline

Layout Diesel blend 6 cylinder VSI II LPG system

Structured turn-key program

1. Identifies

1. Project Feasibility

2. Develops

1. Fleet optimisation & conversion plan
2. Environmental and Financial benefits

3. Implements program

1. Fleet management & Technical training
2. Start up support & services

4. Monitors and Sustains

Co2 monitoring, certification & sales of Co2 credits

Program benefits (ae)

- Turn key project
- Co2, reduction ~23% (NRCAN)
- Operating cost reductions
- Low (\$) Capital investment/continuous Co2 partnership
- Potential benefit of government subsidy & tax credit program.
- Contribution to a greener environment

Sectors of activity

Manufacturing & Service

Transport
Coach Buses
Taxi & police cars
Ambulances

Industrial

Mining & Metal
Pulp & Paper
Forest Industry
